## No. 8 – Waste Disposal

The disposal of discarded waste is only permitted  
by businesses authorised by the Messe FN GmbH

Please use the enclosed address stickers (or fill in)

### Exhibition/Event:

Open-air  Hall Stand no.

### Exhibitor's address

Phone/Fax

VAT-Id-No.

### Orderer (addressee of invoice):

Exhibitor (see above)

Stand builder

Company

Street

ZIP/City

Official in charge

Phone/Mobile

### I. Ordering waste disposal

A standard charge will automatically be incurred for the disposal of waste up to a total maximum of 80 ltr per day (separated into paper, plastics and residual waste) and a one-time disposal of carpet protection foil during the exhibition. The disposal of larger sorted amounts of waste produced during the exhibition and/or during the construction and dismantling time should be applied for with this form. ATTENTION: Any waste found on the exhibition centre grounds either during the construction and dismantling time or at the exhibition itself which has not been applied for will be pursued and the disposal will incur an increased charge as well as an additional administration charge of € 60.00. Adhesive tapes or adhesive tape remains and/or floor coverings that can not be removed and still remain after the given dismantling time on the hall floors, will be removed at the exhibitor's expense and invoiced accordingly. Filled containers and/or refuse bags which are not correctly sorted will incur the highest charge. It is forbidden to bring to or dispose of any exceptional types of waste at the Messe FN grounds.

### II. Waste disposal during the construction and dismantling

Due to lawful regulations you are obliged and responsible for the correct removal of all waste and refuse articles produced during the assembling and disassembling of your stand (law on avoidance, re-cycling and removal of waste from 27.09.1994, BGB/1, page 2705). Should you require the Messe FN to collect the waste, the Messe FN can arrange for the environmentally acceptable removal of waste by an authorised disposal company. The technical disposal method for recycling and removal is the sole responsibility of the Messe FN or the contractor named by them.

### III. Waste disposal during the exhibition

A maximum of 80 ltr (equivalent to a normal commercial refuse bag) of sorted rubbish (paper, plastics, residual waste) can be placed in the evenings in the hall aisles, well visible for the Messe FN cleaning enterprise. For larger amounts, please request an offer below stating the type and amount by Fax, +49 (0) 7541 / 708-335 or in writing to: Messe Friedrichshafen GmbH, Technical Department, Postfach 20 80, 88010 Friedrichshafen. Please note that ordering a container during the exhibition would additionally require renting a parking space (see order form 7).

IV.  The waste disposal was ordered via stand construction company (please indicate name above).<sup>1)</sup>

REGISTERING FOR DISPOSAL<sup>1)</sup>

<sup>1)</sup> please tick as appropriate

Description	Amount (ltr/kg/m <sup>2</sup> /t)*	Type of waste (e.g. wood)	Disposal cost	Collection on
Waste disposal/construction			by request	
Waste disposal/construction			by request	
Waste disposal/dismantling			by request	
Waste disposal/dismantling			by request	
Carpets (rolled)	m <sup>2</sup>	Carpets (rolled)	0.85 €/m <sup>2</sup>	
Carpets (not rolled)	m <sup>2</sup>	Carpets (not rolled)	2.00 €/m <sup>2</sup>
